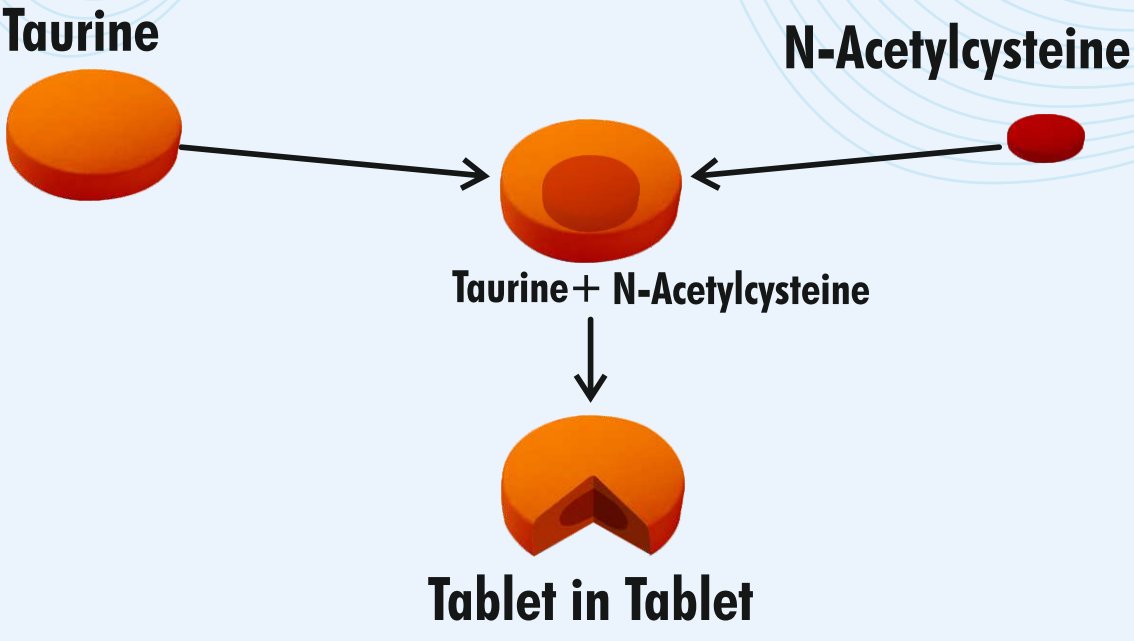
INTRODUCING
Tablet In Tablet Technology



- Prevents drug degradation in the gastric environment.
- Helpful in concealing the bitter and unpleasant taste and odour of the drug.
- Provides initial drug release to provide a rapid onset of action.
- Highly stable formulation as separation of layers does not occur as in case of bilayer tablet dosage form.
- Differential film coating technology for each drug.
- Differential granulation technology for each drug.
- High accuracy in weight variation as compare to Bi-layer technology.
- Improved patient compliance.
